

# ART INSPIRED BY THE GREATS

Hi everyone!

My name is Maggie Miller. I recently graduated from the University of New England with an Art and Design Media degree and would love to share my love for art with you all!

This month's program is called "Art inspired by the greats", which takes art movements starting from the late 1800s all the way to art now, like cubism, impressionism, and pop art, and making our own artwork inspired by the movement. The Monday group will follow the prompt more closely, painting a piece compared to Claude Monet. The Wednesday group will take the art movement and make their own work, using the learned inspiration.

I will be running art programs twice a week in the Gerald E. Talbot (previously known as Riverton) Community Center on Monday and Wednesday mornings, 10-11:30 in the month of November.

**Mondays** will be for artists who don't necessarily consider themselves artists and just want to have fun, follow instructions, and paint a beautiful painting.

**Wednesdays** will be more open-ended with more freedom to be inspired by the art movement. This will be for more experienced artists who want to take their talents to the next level.
